Adopt reasonable limits on cold remedy sales

Required consumers to use a pharmacy ID card before making a purchase of cold remedy products, such as those containing pseudoephedrine, would help reduce the availability of methamphetamine. A significant number of methamphetamine labs are forced to close down due to the availability of pseudoephedrine.

**Metro problems are pervasive**

Regarding Madison Metro, it's not just a problem on the streets but at the South Transfer Point. Problems surround Madison Metro at the transfer point, resulting in transfer point customers being unable to reach their destinations. A lot of young people say they don't know how to get to their destination if they don't want to get in a car.

**Don't change military ballot status**

The May 1 ballot was against the proposal to allow military ballots to be cast in the state. The bill will cost the state $1 million per year, according to its attached fiscal note. There are far better ways to protect the integrity of our elections.

**Do the kind of freedom and inva-**

Lawmakers ought to ask themselves what they are doing to the freedoms of law-abiding citizens and what they are doing to law-abiding consumers who wish to purchase cold remedy products, such as those containing pseudoephedrine. A significant number of methamphetamine labs are forced to close down due to the availability of pseudoephedrine.
